## About

---

Senior UI/UX Designer recognised in the global Top 50 at UX Awards 2025 — selected from 400+ entries across 49 countries for innovation in AI-integrated design. 4+ years delivering end-to-end digital products at Orion Innovations for high-profile enterprise clients in the sports and professional services sectors — platforms serving tens of thousands of coaches, officials, administrators, and fans.

Specialist in AI-accelerated UX workflows, scalable design systems, and WCAG 2.2-compliant product design. Proven track record of leading full design lifecycles across complex, regulated platforms — from stakeholder interviews and usability testing through to developer handoff. Led hands-on design workshops at UX India Conference 2024 and 2025, mentoring peers on AI-integrated UX methodologies.

## Work Experience

---

08/2025 – 06/2026  
Coimbatore, India

### UI/UX Designer (Enterprise Audit Platform — Digital Gateway & Access Management)

*Orion Innovations*

*User Research · Visual Design · Design System · Prototyping · Accessibility*

**Challenge:** A global professional services firm required a unified platform enabling group and component auditors to collaborate in real time across instructions, reporting, and status workflows — serving audit teams across multiple geographies.

- Delivered responsive desktop layouts across **3 interconnected platform modules**: Digital Gateway (group reporting), Access Management (role-based access control), and a stakeholder simulation experience.
- Designed access and permission flows for **6 distinct user role types** across workspace, application, and group levels.
- Conducted user research and journey mapping with **6 auditor participants**, identifying key friction points in cross-team instruction and status-update workflows.
- Maintained a scalable Figma design system used consistently across all modules, comprising **50+ components**.
- Delivered **55+ screens** across all modules within a 9-month total engagement.

**Outcome:** Design system adopted as the platform standard; Digital Gateway prototype approved for development following stakeholder review.

*Tools: Figma · Miro*

2024 – 2025  
Coimbatore, India

### UI/UX Designer (Supported -Sports Platform —Projects)

*Orion Innovations*

*UI Design · Design Systems · Accessibility · Visual Design*

Contributed to the design and delivery of **5 sports platform projects** including **Player Nomination, Player Trade, Ticketing, Supplement Register, and Tribunal**

- Delivered interactive high-fidelity prototypes for **5 distinct workflows** within 1–4 week windows per engagement, enabling rapid stakeholder validation and business case development.
- Conducted user research and translated business requirements into intuitive user flows, information architecture, wireframes, and high-fidelity interactive prototypes.
- Collaborated with cross-functional teams and stakeholders to refine user experiences through design workshops, feedback sessions, and iterative prototyping.

*Tools: Adobe XD*

05/2024 – 08/2025  
Coimbatore, India

## UI/UX Designer (Sports Platform — Digital Contract Management System)

Orion Innovations

End-to-End UX · Stakeholder Research · Design System · Accessibility · Prototyping

**Challenge:** Player contract management across clubs, legal teams, and compliance officers was fragmented across manual workflows — creating compliance risk and administrative overhead across hundreds of contracts per season for one of Australia's premier sports organisations.

- Led end-to-end design across a **15-month engagement**, owning the full lifecycle from discovery through to production-ready developer handoff across 7 platform modules.
- Conducted **structured stakeholder interviews with 12 participants** across club administration, legal, and compliance teams; research findings directly shaped the IA and form flow design, reducing rework by an estimated 30%.
- Designed and validated wireframes and high-fidelity prototypes through **3 rounds of usability testing with 5 participants each**, resolving 22 critical usability issues before development.
- Delivered **280+ high-fidelity screens** and a complete developer handoff package including annotations, interaction specs, and responsive guidelines.
- Built a scalable **65-component XD library** adopted across 4 subsequent digital products in the platform suite — cutting design groundwork time for each follow-on by an estimated 3 weeks.
- Ensured full **WCAG 2.2 AA compliance** — verified contrast ratios, keyboard navigation, focus management, and screen reader compatibility in collaboration with the development team prior to launch.
- Presented design decisions and progress to **14 stakeholder review sessions** across the engagement, maintaining alignment between design, product, and business requirements.

**Outcome:** Platform successfully transitioned to development; design system adopted across 4 follow-on products. WCAG 2.2 AA compliance verified pre-launch. Estimated reduction of 3-day manual contract processing to same-day digital workflow.

Tools: · Adobe XD · Colour Contrast Analyser

10/2023 – 05/2024  
Coimbatore, India

## UI/UX Designer (Sports Platform — Match Day Portal V1.0)

Orion Innovations

End-to-End UX · User Research · Information Architecture · UI Kit · Accessibility

**Challenge:** Match-day Portal — team management, official assignments, scheduling, and live status tracking — were managed across disconnected tools, creating delays and compliance risk for referees, officials, and admins during live match events.

- Led design of the Player Movement Report module from discovery to high-fidelity handoff, owning the full UX for **1 of 3 core portal modules**.
- Designed for **4 distinct user roles** (referees, match officials, coaches, administrators) with role-specific information architecture tailored to each group's time-pressured workflows.
- Delivered a comprehensive UI kit of **35+ components**, enabling consistent interaction patterns across desktop and mobile-responsive views.
- Designed for a platform supporting over **800 match-day events** per season, requiring clarity and zero-ambiguity in real-time data display.

**Outcome:** V1.0 delivered and adopted by match officials; Player Movement Report commended by stakeholders for clarity and accessibility in live match environments.

04/2023 – 10/2023  
Coimbatore, India

## UI/UX Designer (Sports Platform — Grassroots Portal V2)

Orion Innovations

UX Redesign · Wireframing · Prototyping · Design System · Accessibility

**Challenge:** An ageing platform served grassroots football coaches, clubs, and volunteers with a fragmented interface hindering onboarding and day-to-day task completion for a user base with varying digital literacy.

- Reimagined **12 core user journeys** across onboarding, session planning, and club management — reducing average task completion time by an estimated
- Rebuilt and extended the component library to **45+ reusable components**, establishing a consistent design language adopted across subsequent platform releases.
- Delivered **40+ wireframes and prototypes** across 6 platform modules within a 6-month engagement.

**Outcome: Modernised interface delivered on schedule;** component library adopted as the baseline for all subsequent platform iterations, saving an estimated 2 weeks of design groundwork per follow-on project.

*Tools: Adobe XD*

07/2022 – 03/2023  
Coimbatore, India

## UI/UX Designer (Sports Platform — Player Registration & Club Affiliation)

*Orion Innovations*

*Prototyping · Wireframing · Responsive UI · Accessibility · Visual Design*

**Challenge:** The existing player sign-up and club affiliation processes were paper-heavy and inconsistent, creating friction for tens of thousands of grassroots participants registering each season.

- Redesigned end-to-end registration and affiliation user flows, reducing the sign-up journey from **11 steps to 4** — a 64% reduction in interaction complexity.
- Delivered **30+ responsive screens** across player sign-up, profile management, and club affiliation modules, all WCAG 2.1 AA compliant.
- Simplified complex multi-document approval workflows into a single guided interface, reducing administrator processing time by an estimated **~40%**.

**Outcome: Registration platform launched on schedule;** WCAG 2.1 AA compliance verified across all screens. Stakeholder approval secured in a single review cycle.

*Tools: Adobe XD*

## UI/UX Designer (AI-Integrated UX — SponsorSphere (Case Study)) - POC

*Case Study* [↗](#)

*End-to-End AI-Powered Design Workflow*

**Challenge:** Demonstrated how AI tools can compress and enhance the full UX design process — from research synthesis to high-fidelity prototype — without compromising quality or user-centricity.

- Completed a full end-to-end design cycle — personas, user flows, wireframes, UI design, and interaction specs — in **under 4 days**, compared to a typical 3–4 week traditional workflow: a 5× speed improvement.
- Integrated **8 AI tools** across the research, ideation, wireframing, and visual design phases in a documented, repeatable workflow.
- Submitted to UX Awards 2025 and selected in the **global Top 50** from 400+ entries across 49 countries for innovation in AI-integrated design.

*Tools: Galileo AI · UX Pilot · Uizard · Lovable · Whimsical · ChatGPT · Visily · Napkin*

## Skills

---

### UX methods

Research, Usability Testing, Journey Mapping, IA, Design Thinking, Personas, User Flows

### Primary tools

Figma, Adobe XD, FigJam, Miro

### AI design tools

Galileo AI, UX Pilot, Uizard, Lovable, Whimsical, ChatGPT

### Soft skills

Stakeholder presentation, Cross functional collaboration, Workshop facilitation, Agile / Scrum

### Visual

Wireframing, Prototyping, Design Systems, Responsive UI, Accessibility (WCAG 2.1 AA)

### Supporting tools

Adobe Illustrator, Adobe Photoshop, Microsoft PowerPoint

### Dev handoff

Figma Dev Mode, axe, Colour Contrast Analyser

### Platforms

Web (desktop & responsive), Mobile responsive, Enterprise SaaS

## RECOGNITION & COMMUNITY

---

2024 – 2025

### UX India Conference

Bangalore & Hyderabad

*Bangalore & Hyderabad*

Represented Orion Innovations as design delegate. Led hands-on UX workshops and engaged with industry leaders on AI integration and advanced UX practices.

2023 – 2025

### Internal Hackathons — Orion Innovations

Collaborated with cross functional teams to solve real-world design challenges under time constraints.

2025

### UX Awards 2025 — Global Top 50

Selected among the Top 50 UX designs globally from 400+ entries across 49 countries, for innovation and impact in AI-integrated design workflows.

## Certifications

---

- UX Badge Certification — Orion Innovations
- Digital Skills: User Experience — Accenture
- Experience Designer Professional Badge — Orion Innovations

## Education

---

### Master of Computer Applications (MCA)

*SRM Institute of Science and Technology*

### B.Sc. Computer Science

*Sri Krishna Arts and Science College*

## Declaration

---

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
